

## 107<sup>th</sup> FLYERS CLUB'S RULES

1. All AMA (Academy of Model Aeronautics) Rules apply to 107<sup>th</sup> Club at all times.
2. Per the DCR, the entrance gate located on Route 107, must be closed and locked at all times.
3. Per the DCR, NO SMOKING in the open area of the field. Smoking must be confined in the owner's vehicle. Cigarettes, etc. must be properly disposed, but not on DCR property.
4. The DCR has mandated that Drones (Multi-Rotor Aircraft) are not allowed to fly at our field.
5. Per the DCR, no alcoholic beverages permitted at field.
6. Per the DCR, disturbing any birds or wildlife is strictly prohibited.
7. All correspondence/communication with the DCR concerning Club matters must be made only through the 107<sup>th</sup> RC Board of Directors.
8. Per our Letter of Agreement (LOA) with the Boston Air Traffic Control Tower, all RC aircraft are restricted to 400 feet AGL max, must remain clear of full-scale aircraft, and fly within a lateral boundary of a 1,200 foot radius from the center of our runway. In the event of a lost link, fly-away, or operational area spill-out that may affect manned aircraft operation, you must immediately notify Boston ATCT at (617) 455-3194.
9. All flyers, including guests, must be AMA Members, and all RC flyers 13 years old and over, must be registered with the FAA. Buddy Box learners are not required to be AMA Members or registered with the FAA, but the Pilot-in-Command member must be.
10. Guest may fly for only three visits, then must join the club as full members if they want to continue to fly at our club. Guest must display their current AMA card and or their current membership card from another AMA charter club, and have proof of FAA registration on their person when flying at our field.
11. All RC flyers must have their FAA registration number placed on any outside surface of each aircraft they are flying.
12. All members must have their current membership card displayed on them when at the field, including when flying. Also, all RC flyers 13 years old and over, must have proof of FAA registration on their person when flying.
13. All pilots flying any type of FPV aircraft must comply with AMA Document #550 concerning FPV rules.
14. Planes should be started in the pit area only. Bring your setup table into the pit area or use the ones provided. The pit area is nicer than the dirt by your vehicle.
15. Only radio-controlled aircraft and control-line planes allowed; no cars, free flight, boats, rockets, or kites.
16. No taxiing in pit areas. Carry running plane to taxiway or runway or taxi across the dirt from the setup stand to the runway.
17. No restarts on runway if other pilots are waiting.
18. All pilots must stand behind the safety fence when piloting aircraft; this includes spotters.
19. Only 4 RC aircraft in the air at one time.
20. No intentional flying near or over Route 107, pit areas, or control-line area.
21. Pilots must loudly announce for all other pilots to hear: All takeoffs, landings, touch & goes, dead stick landings, persons on runway or field, loss of control, or stranded aircraft recovery.
22. Planes with loud pipes or engines should be aware of sound carrying to houses when wind is blowing from the East. Fly low, short flights. The exception is: No gas, nitro or kerosene prior to 9:00am on Sunday.
23. If anyone causes damage to another's property, including a crash due to a frequency conflict or a rule violation, that person is responsible for the damages.
24. All 72 MHz transmitters must have frequency flags displayed. All RC flyers that use 72MHz must post their AMA card on the frequency board before the transmitter is turn on.
25. Members should act in a civil and helpful manner, especially trying to assist new flyers.
26. All vehicles must be parked to east side of the runway towards route 107.
27. Trash barrels are not for aircraft parts, take your crashed planes and parts home.
28. Two parking spaces nearest the shed and two at the North end of the field are reserved for handicap parking. Please allow our handicapped members to park there.
29. Any persons observed riding on sport vehicles, motorcycles, or acting in destructive manner should be reported to DCR @ 617-727-5380 or the Environmental Police @ 617-727-3905.
30. Be aware that we probably have the last almost perfect flying field in the area. Your Officers and Members have worked very hard to accomplish this. PLEASE take care to see that we do not lose our field due to thoughtless or careless acts.
